Beyond Lineals

Where Aluminium Meets Imagination

Look around you. From Satellites in the Sky to Smartphones in your hand, Aluminium Shapes our everyday World. It is Light, Strong, Endlessly Recyclable and Full of Possibilities.

At **Beyond Lineals**, We don't just manufacture Aluminium. We Reimagine it. By Combining Cutting Edge Extrusion, Advanced Machining and State of the Art Finishing, We deliver Fully Finished, Ready to use Aluminium Solutions for Industries across the Globe.

We go Beyond Material. We go Beyond Limits.

We go **Beyond Lineals**.

Who are We?

Beyond Lineals, A Division of **Goyal Inc**, is a Global Partner in Precision Aluminium Extrusion, Machining and Finishing. With Over Two Decades of Expertise, We Specialize in Transforming Raw Aluminium into High Performance Profiles / Components and Solutions Tailored for Diverse Industries.

Our Integrated Approach, From Billet Casting to Ready to use Assemblies, Ensures Unmatched Quality, Consistency, and Speed.

Our Vision

To be a Global Benchmark in Fully Finished Aluminium Extrusion Solutions.

Our Mission

To Deliver Innovative, Sustainable and Precision Engineered Aluminium Products that Empower Industries Worldwide.

Our Value

- **Sustainability** – Aluminium for a Greener Tomorrow.
- **Innovation** – Engineering Future Ready Solutions.
- **Customer Delight** – Partnerships Built on Trust.
- **Quality First** – Excellence at Every Stage.

End-to-End Aluminium Solutions

We are among the few in the World offering the **Complete Aluminium Value Chain Under One Roof.**

OUR CAPABILITIES

Billet Casting

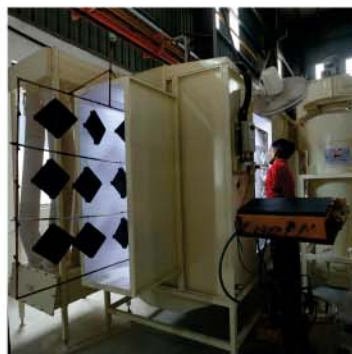

Tool Room & Die Design

Extrusion

Machining
(Cut to Length, Grinding, Shot
Blasting & CNC 3/4/5 Axis)

Surface Finishing
(Brushing, Anodizing, Electro Color,
Powder Coating, Paint & more)

Assembly

**Packaging &
Global Delivery**

Billet Manufacturing & Extrusion

Our Process begins with In-house Billet Casting, Ensuring Purity, Consistency and Strength. The Billets are Extruded with Precision to Match Exact Design Specifications, Enabling Complex Shapes and Lightweight Solutions without Compromising Durability.

- Advanced Extrusion Presses for Flexibility in Size & Design
- High Strength Alloys for Multiple Industries
- Custom Profiles with Precise Tolerances

Service Capability :

Profiles up to 7 Meters Length and 12 Inches Diameter/Rectangle.

Engineering Precision

Our In House Tool Room and CNC Machining Centers Guarantee Accuracy and Efficiency. From Designing Custom Dies to Machining Intricate Components, Every Step is Controlled under Strict Quality Standards.

- CNC Machining (3 Axis, 4 Axis & 5 Axis)
- Milling, Drilling, Tapping & Cutting
- Faster Lead Times with In-house Tool Room
- Tailor Made Dies for Custom Profiles

Service Capability :

Complex Machining up to 3 Meters Length and 12 inches Diameter/Rectangle.

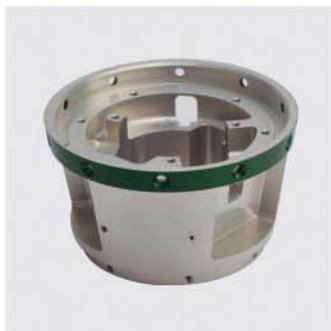

Finishes That Define Excellence

Beyond Lineals Offers a Wide Range of Finishing Options to match your Product Aesthetic Requirements.

- **Brushed & Hairline Finish** – Premium Surface Textures
- **Powder Coating** – Durable, Weather Resistant Finish
- **Painting** – Long Lasting Decorative Options
- **Anodizing** – Corrosion Resistance & Aesthetics
- **Electro Coloring / Color Dye** – Wide Palette of Shades

Service Capability :

Finishing up to **6.5 Meters Length** and **12 Inches Diameter/Rectangle**.

More Than Just Profiles

We don't stop at Extrusion and Finishing, We Deliver Solutions.

- Assembly of Aluminium Components
- Pre Fabricated, Ready To Use Products
- Tailored Packaging for Global Shipping
- JIT (Just In Time) Delivery for Seamless Supply Chains

At Beyond Lineals, Every Profile is Engineered to Save your Time, Cost and Effort.

Versatility Across Industries

Our products power innovation across multiple sectors:

Construction & Architecture
Facades, Frames, Interiors

Automotive
Lightweight Structural Parts

Aerospace & Defence
High Performance, Precision Components

Electronics & Consumer Goods
Sleek Durable Designs

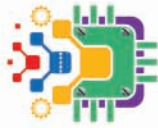

Industrial Machinery
Heavy Duty Profiles & Systems

Our Journey, Our Impact

- Delivered Over 1 Million+ Aluminium Profiles Worldwide
- Clients Across 20+ Countries
- ISO Certified Systems for Quality & Safety
- Preferred Partner for OEMS across Industries
